

Info Breakfast 2015-03-24

New routines for employment extension: For those of you that have time-limited employments (employed PhD students and others) must now fill in your own personal data each time your position is extended. Görel.

Study plans: From now on we need to print out our study plans each year to be signed by the student, supervisor and head of department.

Link to the South Pacific: Per Becker at the Division of Risk Management and Societal Safety, has just started a 1-year assignment for UNICEF and will be stationed on Fidji in the south Pacific. For your information, he has contacts, among others, with the University of South Pacific and several other organizations and is willing to assist if any of us would like to establish some cooperation project in the area. Fidji and other islands in the area are also on the MFS list if anyone would like to arrange an MFS project there.

Table tennis: Not to cause any inconvenience it was agreed that there will be no table tennis playing during seminars or meetings in the coffee room or conference room.

Appraisal talks: It is time for our annual Appraisal Talks with the students. Please sign up in Doodle.

Spring event: Water World in Kristianstad was brought up as an alternative. Cintia will make sure that somethings happens.

IIASA Young Scientists: Erik and Kamshat were both accepted to the IIASA Young Scientists Summer Program, despite tough competition. Congratulations!

TVRL exhibit activities: As a part of TVRL's ambition to attract new bright co-workers, we have been participating in the Environmental Engineering students' Career Fair Day, promoting our group as a potential future employer for people with research ambitions. We will do this again next year.

Solid waste separation at TVRL: Apparently, some new common KC4 system is coming up. Veronica and Carina will keep an eye open and make sure things develop.

International master students: Rolf and Linus has evaluated and selected candidates for our next international Water LU class. They are expecting about 10 students to enter the program.
