

## **Info Breakfast 20180227**

### **Good News:**

- Johanna Sörensen was awarded the NEW GENERATION-prize from Föreningen Vatten. She will receive the prize on 14 March during the Water Day and present a seminar about her work.
- Two of Johanna's former master students will receive the prize of best student article at journal Vatten.
- Föreningen Vattens yearly meeting will be in Stockholm 14/3 (in Swedish). Further information on <https://www.foreningenvatten.se/wp-content/uploads/2018/02/20180209-Inbjudan-årsmöte-2018-03-14-v2.pdf>
- Magnus Larsson has got two STINT exchange program with China and Japan! 1 + 1 year starting from this fall

### **New comers:**

- 2 new doc students arriving this week: Yahaya Sani from Nigeria (Thursday) and Mehran Naseri Rad from Iran (Friday). They will be at room 3416 (neighbour with Carina).
- A new guest will arrive Mars 1: Reza Heydarzade from Iran, University of Teheran will have Miklas as supervisor under his time at TVRL 20180301 - 20181101.

### **LUWater:**

We are currently working on improving presentations of our researchers both seniors and PhD students on our website: [www.water.se](http://www.water.se). Link to fill the questionnaire: <https://goo.gl/forms/AiKrnNDriJ18HTe73>.

21 of March is opportunity to take professional photos for you beside a big seminar arranged by LUWater. The seminar theme is that we need other water researchers. All are welcome to give a 5 minutes speed dating pitch of what resources and competence you need for your research and future research plan. And then we have group discussion on different themes such as urban flood, biofilm in drinking water, digitalizing society, nature based solutions for sustainable society etc. to formulate concrete projects to work together. Invitation with details of the workshop will be sent out soon.

### **Information policy:**

- We should be more consequent about informing where we are during working hours. Inform on our white boards at the door where you are. In case of sickness, send a message so that someone can write it at your whiteboard.
- Supervisors should keep track of where their PhD students are (during working hours)

### **Seminar from senior researchers:**

- A series of seminars where senior researchers will present some topic of his/her choice that is of interest for PhD students. Half hour seminar of a very specific topic. Dauren will contact senior researchers.

Next Info Breakfast 27 March.
