

Info Breakfast 20180529

Good News:

- Safety check: We have passed a safety check on our offices that showed we have a nice and well working physical environment. Small remark is that we have too many electrical cables lying on the floor. We are expected not to leave cables on the floor. Also be aware about the quality of extensions if you are using any. Do contact Lennart Grahn if you need new extensions or shorter cables.

Visitors:

- Ahmad Hamidov
- Mukhamadkhan Khamidov

Vacation time:

- Due to the new GDPR law, this year we ask you all to write your vacation weeks on a paper calendar on the copy room. Write your name and mark the weeks you will be on vacation.

Result from Psycho-Social survey:

- Showed that we have a well working social environment with some room for improvements.
- In general, we feel we have clear duties, good collaboration with others at TVRL, are well informed about the organization, have a respectful environment.
 - o We feel like we have a reasonable working load, on the other hand, in general, we need to work off hours to fulfil our duties.
 - o We can't really stop thinking about work during our free time.
- Main negative points:
 - o Stress about financing
 - o Abusive treatment / Victimization. Those that feel they have been exposed to such treatment may get in contact with any of the following people: Cintia B Uvo, Jesper Arvidsson, Bitte Rosencrantz or Görel Svensson. We take this issue very seriously and want to bring such occurrences to zero.
