

Info Breakfast 20180925

Good News:

- Magnus Larson's application to SIDA bilateral agreement with Rwanda went to the second phase. He has now a lot of work in front of him to prepare the full application.
- Miklas had an JPI application that went to the second phase. It has already been submitted.
- I've got an application granted from Energimyndighet (in collaboration with KTH and SMHI)

People:

- **Visitors**
- Dr. Rajib Das (research visitor working on Urban Hydrology. Will be with us for 2 years)
- Mariana Chrispim (PhD visitor from USP, working to become a double degree PhD. Will stay for 1 year)
- Mehdi Osooli (working on Public health with Kamshat. Short visit)

New routine for our lab:

P-O is organizing a new routine for people that would like to use our lab. More information to come

Course on Advanced Hydrology:

The Advanced Hydrology course, which is a mandatory course on our PhD program, will be offered to PhD students in November 2018. Interested people should contact Magnus Persson (magnus.persson@tvrl.lth.se).
